

## FIRM OVERVIEW

**WESTFIELD CAPITAL MANAGEMENT COMPANY, L.P.** is an employee-owned, U.S.-based investment advisor dedicated to providing quality investment management services to institutions and wealthy individuals with \$24 Billion in assets under management.

## STRATEGY OBJECTIVE

The strategy seeks long-term growth of capital through concentrated investments in U.S. health care stocks.

## PHILOSOPHY & APPROACH

- We believe we can construct a portfolio capable of benefiting from the secular growth and innovation of the U.S. health care system while achieving alpha relative to the broader Health Care sector by investing in quality businesses with differentiated products, technologies, and services which meet our disciplined valuation criteria.
- Westfield's rich history in Health Care investing across the capitalization spectrum and our experienced portfolio management team make us uniquely capable of investing in this inefficient, alpha-rich market segment.
- Matt Renna, Partner & Head of Health Care Sector Team, is lead portfolio manager (22 yrs. experience), alongside co-portfolio manager Will Muggia, President, Chief Executive Officer and Chief Investment Officer (42 yrs. experience).

## INDUSTRY EXPOSURE

Holdings are subject to change without notice. Due to rounding and cash, number may not sum to 100%. Individual account characteristics and performance may differ depending on factors such as specific client guidelines and restrictions.

\*Represents data from 10/1/2020 through 12/31/2020

Index: Russell 3000® Growth Health Care Index

The Health Care Composite contains fully discretionary accounts that focus on long-term growth of capital by investing in a portfolio of approximately 30-50 health care specific equity securities with any market capitalization. For comparison purposes, the composite is evaluated against the Russell 3000® Growth Health Care Index. Prior to January 1, 2022, the Russell 3000® Health Care Index was used as the primary benchmark. The benchmark was changed given the investment strategy's growth focus versus a core strategy. Index returns are not covered by the report of independent verifiers and are provided for informational purposes only. The index returns assume the reinvestment of dividends but do not reflect the impact of fees, applicable taxes or trading costs which may also reduce the returns shown. Securities contained in the index maybe different than the securities contained in the composite and could have different risk and reward profiles.

Westfield Capital Management Company, L.P. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Westfield Capital Management Company, L.P. has been independently verified for the periods January 1, 2000 through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy, or the quality of the content contained herein.

Westfield Capital Management Company, L.P. is an SEC-registered investment adviser dedicated to providing quality, separate account investment management services to institutions and high net worth individuals. Registration does not imply a certain level of skill or training. Westfield supervises mainly domestic growth equities, with investment strategies – also known as products – focusing on each segment of the capitalization spectrum. Westfield also supervises foreign equities that are traded on U.S. stock exchanges and non-U.S. stock exchanges. The firm's list of composite descriptions and limited distribution pooled funds is available upon request. Past performance is not indicative of future results. The performance of any individual account may vary from the composite performance provided above.

The U.S. Dollar is the currency used to express performance. Both gross and net returns reflect the deduction of transaction costs and the reinvestment of income. Gross returns do not reflect the deduction of investment advisory fees or any other expenses that may be incurred in the management of the account. Net performance was calculated using actual management fees. Information regarding period specific fee schedules is available upon request. The three-year annualized standard deviation measures the variability of the composite gross-of-fees returns and the benchmark returns over the preceding 36-month period. The three-year annualized standard deviation is not presented because the composite did not yet have 36 monthly returns. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year using gross returns. For those periods with fewer than five accounts included for the entire year, "N/M" is noted as the dispersion is not considered meaningful. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The Health Care Composite inception date is October 1, 2020. The Health Care Composite creation date is November 1, 2020. The management fee schedule for this composite is 0.65% on all assets. Actual investment advisory fees incurred by clients may vary.
